## **EHR – ELECTRONIC HEALTH RECORDS**

Position your office now to take advantage of upcoming financial opportunities. We at Zybex would like to help you obtain this money through the use of our EHR software.

- Paperless Entry of Patient Record in either S.O.A.P Mode or specialist customized method.
- Chief Complaints, Vitals, and Screen “Template” easy to modify.
- Medication screens effectively check drug interaction and handle refills.
- ePrescribe allows qualification for first step in PQRI funding of EHR.
- Dragon speak voice recognition allows provider to dictate progress notes. **SAVE \$** by using templates to reduce/eliminate dictation.
- Super Bills, procedure and diagnosis coding created during consultation are “sent” to billing department, saving posting time.
- Laboratory, Radiology results imported. Orders exported.
- Document Management allows attachment of faxes and transcription.
- Low monthly costs (\$200 per mo) accommodate small/mid size practices.
